Martin Bencher Group is a Scandinavian based shipping and freight forwarding company. We transport all kinds of cargo - and specialize in the handling of projects and oversized/heavy cargo from many different industries. From paper mills, power plants, and oil and gas projects to wind turbines and luxury yachts, Martin Bencher Group can handle the transportation.

Martin Bencher Group is involved in project shipments all over the world. The majority of the cargo we handle is shipped on container- and heavylift vessels, but from time to time the cargo is urgent and airfreight services are needed. All Martin Bencher offices have the necessary expertise and know-how to handle both seafreight and airfreight shipments.

With headoffice in Aarhus, Denmark, the Group has its own network of local offices in many countries around the world and a strong network of trusted partners in most other strategically important locations.
